In-depth Focus on Wound Care

Saturday, September 25, 2010
The Ritz-Carlton Coconut Grove, Miami, Florida

Symposium Co-directors
Ian M. Reiss, M.D., FACS
Suzanne Leaphart, M.A., BSN, R.N., CWS

Baptist Health South Florida
Fifth Annual Wound Care Symposium — Beneath the Surface: In

Target Audience

Overview
Presented by South Miami Hospital Wound Center, this symposium brings together nationally and internationally known wound care experts to examine the latest advances in hands-on care, lymphedema and lipedema with related skin changes, diabetic foot ulcers and a comprehensive discussion on pressure ulcers to include evidenced-based research, advanced therapies and surgical interventions, as well as regulatory changes and the upcoming effects of healthcare reform on the practice of wound care.

Learning Objectives
Upon completion of this symposium, participants should be better able to:

- Implement strategies to manage preventable and unpreventable pressure ulcers.
- Examine current CMS regulations regarding pressure ulcers and formulate strategies to achieve compliance.
- Investigate the impact nutrition has on wound healing and address patients’ nutritional concerns.
- Explain the clinical benefits of debridement of decubitus ulcers.
- Assess various debridement techniques and implement the appropriate technique to promote ulcer healing and wound closure.
- Explain the role of plastic surgery reconstruction in decubitus ulcers.
- Address the dermatological concerns of patients with lymphedema and its associations.
- Differentiate lipedema from lymphedema.
- Educate lymphedema patients and caregivers to optimize treatment and prevent complications.
- Implement treatment strategies to identify and treat diabetic foot ulcers utilizing current standard-of-care protocols to reduce morbidity and mortality.
- Proactively reassess DFU wound healing and appropriately initiate advanced therapies.
- Measure wound nitric oxide bioactivity in DFU patients and explain its role as an effective diagnostic indicator of wound healing.
- Utilize important diagnostic information including bacterial load, biofilms and matrix metalloproteinases as quantitative data to enhance diabetic foot ulcer treatment.
- Utilize the criteria that indicates increased superficial bacterial burden and deep tissue infection.
- Select the appropriate topical and/or systemic therapy options based on clinical assessment.
- Integrate infection control including preventing the spread of methicillin-resistant Staphylococcus aureus (MRSA) into chronic wound care practices.
- Explain the biochemistry of stress and assess its effects on wound healing.
- Implement behavioral interventions to ameliorate stress as a barrier to healing.
- Explain results of recent studies on health disparities related to skin assessment and disparities between patients with light and darkly pigmented skin.
- Apply epidermal barrier function in the detection of erythema in patients with darkly pigmented skin.
- Utilize thermography and high-resolution ultrasound technologies to detect erythema earlier in patients with darkly pigmented skin.

Faculty
Joseph V. Boykin Jr., M.D., FACS  •  Medical Director, HCA Retreat Doctors’ Hospital Wound Healing Center • Institute for Plastic and Reconstructive Surgery • Clinical Associate Professor, Plastic Surgery • Virginia Commonwealth University, Medical College of Virginia • Richmond, Virginia

Jason R. Hanft, DPM, FACFAS  •  Podiatrist, Baptist, Doctors and South Miami Hospitals • Director, Podiatric Education and Director of Research, South Miami Hospital • Adjunct Professor, Rosalind Franklin University, Temple University and Barry University • Diplomate, American Board of Podiatric Surgery • Chief Science Officer, Doctors Research Network, South Miami, Florida

Suzanne Leaphart, M.A., BSN, R.N., CWS  •  Symposium Co-director • President and Founder, Advanced Wound Recovery Group • Consultant, SEHA Medical and Wound Care • Ridgefield, Connecticut

## Accreditation and Credits
Baptist Health South Florida is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Baptist Health South Florida designates this educational activity for a maximum of 6.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity. This activity has been approved for 6.5 general continuing education hours by the Florida Board of Podiatric Medicine, Baptist Health South Florida. CE provider #50-182. This activity has been approved for 6.5 contact hours by Florida State Board of Nursing, Baptist Health South Florida. CE Broker Provider #50-182. This activity has been approved by the Florida Board of Pharmacy for 6.5 continuing education credit for pharmacists, Baptist Health South Florida. CE Broker Provider #50-182. This activity has been approved for 6.5 contact hours by the Florida State Board of Occupational Therapy, Baptist Health South Florida. CE Broker Provider #50-182. This activity has been approved for 2.0 contact hours by the Florida Board of Clinical Social Workers, Marriage and Family Therapists and Mental Health Counselors, Baptist Health Florida. CE Broker Provider #50-182, expiration 3/31/2011. The two lectures that have been approved are Stress and Wound Healing and the Roundtable: How Will Healthcare Reform Affect the Specialty of Wound Care? This activity has been approved for 7.5 contact hours for respiratory therapy personnel in the category of personal growth by the State of Florida, AHCA provider #RCE58, Baptist Health South Florida. CE Broker Provider #50-182. Dietitians: Credit application pending. Radiologic Technologists: Credit application pending. Physical Therapists: Credit application pending.

## Participants

**Courtney H. Lyder, N.D., GNP, FAAN** • Dean and Professor, School of Nursing • Assistant Director, UCLA Health System • Director, Patient Safety Institute, UCLA Health System • University of California, Los Angeles, California

**Liza G. Ovington, Ph.D., FACCWS** • Medical Director, Ethicon • Johnson & Johnson Wound Management • Somerville, New Jersey

**Ian M. Reiss, M.D., FACS** • Symposium Co-director • Vascular Surgeon, Baptist, South Miami and Doctors Hospitals • Medical Director, South Miami Hospital Wound Center • Miami, Florida

**R. Gary Sibbald, BSc, M.D., FRCPC (Med, Derm), MACP, FAAD, Med, FAPWCA** • President, World Union of Wound Healing Societies • Professor of Public Health Sciences and Medicine, and Director, Masters of Science in Community Health, University of Toronto • Toronto, Ontario, Canada
Fifth Annual Wound Care Symposium
Beneath the Surface: In-depth Focus on Wound Care

Saturday, September 25, 2010

Registration deadline is September 10, 2010.

Register Online at baptisthealth.net/cme. We regret that registrations cannot be accepted by telephone. If faxing form, please do not mail.

Return this completed form with payment to:
Fax: 786-596-2769 (credit card payments only)
Mail: Continuing Medical Education Department, Baptist Health South Florida
8900 North Kendall Drive, Miami, FL 33176-2197
